SCOPE OF SCHEME WIDE | HELD OFF FOR CARRANZA

Special correspondence to THE SUN.

BUENOS AIRES, Feb. 16.—Argentine officials and society have made elaborate plans for the reception and entertainment of the delegates to the financial congress which is to meet here April 3 in an effort to bring about uniformity in the monetary laws of the countries belonging to the Pan-American Union.

The Argentine reception committee will meet the U. S. S. Tennessee several miles out in the river and escort her to her berth. President De la Raza will be the host at a banquet on the night of the arrival. He has placed Government House at the disposal of the congress for its sessions.

The delegates will meet in five sessions to consider legislation on transportation, currency, and customs, and stabilizing international exchange, arbitration of commercial disputes, negotia-

WASHINGTON, March 12.—The possibility of war arising from the Mexican situation will result in a determined effort to drive the Administration defence programme through congress without delay.

There were indications today that the Administration is preparing to exert pressure in behalf of the defence bill looking toward their early passage in emergency session. It is probable that the President will call an early conference of leaders of both parties in the House and Senate with the view of reaching an agreement for the immediate passage of the bill.

The first measure the President is expected to submit to congress is a bill for immediate enactment of the Chamberlain bill, which authorizes the purchase of regular arms to the strength of 175,000 and a war stock of 215,000 and provides adequate equipment and reserve supplies for

tele instruments, bills of lading, water-
ways receipts, uniformity of customs
regulations, postage rates, parcel post
and money order facilities, cable rates,
wireless telegraphy, commercial travel-
ers and their supplies, patents, trade
marks and copyrights.

Although the congress will not begin
its deliberations until April 3 it is ex-
pected that all the delegates will be in
the city by March 25, and there will be a
good deal of social and other activity
before the opening day. There are nine
days on the official programme, but it
is expected that this time will be too
short for the work in hand and that
many will stay well beyond it.

Following is the official programme
as prepared by the Minister of the In-
terior:

April 3—9 to 10 A. M., excursion in
suburban cars to visit the city and the
railway stations; 3 to 5, collective meet-
ings and port works; 5 to 6, inauguration
of the congress with speeches of
welcome by the President of the republic,
the Minister of Foreign Affairs and the
Minister of the Interior; 7 P. M.,
President's banquet.

April 4—9 to 12 and 2:30 to 5 P. M.,
sessions of commissioners.

April 5—Same as preceding day, with
official banquet at 5 to 6 P. M.

April 6—Delegates visit city of La
Plata from 9 to 12 M.; 3 to 7 P. M.,
delegates in session.

April 7 and 8—Congress in session.

April 9 (Sunday)—9 to 12 M., visit
made to city of La Plata; 2 to 5 P. M.,
delegates to be entertained at
races.

April 10 and 11—Delegates in session.

In the face of the Mexican emera-
gency there is evidence that the President
find members of Congress, prepared
to take any action that might be
as the army and navy are concentrated
at Vera Cruz.

Fearful to Arouse Carranza.

The chief consideration which has
deterred the President from making an
immediate declaration of emergency
these past days has been the
effect of such a action on the attitude
of Carranza. Administration officials
are so much afraid of the effect of such
a move that they have refused to
discuss the matter. The fact is
that Carranza may regard it as a
sign of immediate intervention in Mex-
ico.

The feeling in official circles, however,
is that the Government must be
able to take the chance of offending
Carranza that of being almost unpre-
pared in case the Mexican expeditionary
troops determined opposition.

The sudden outbreak of the revolution
with which the United States
confronted has stiffened the backs of
members of Congress who are
national preparedness. The
population of the United States
all for the increase of the
army and the reorganization of
the National Guard members who are
in the forefront of the defense
movement are demanding that
the army be in the present
material for the coming debate.

Eddie Cuneen Accused of Violating Sullivan Law.
 Eddie Cuneen and his seventy-three

stitches—one of the largest collections of the kind ever acquired by a gangster—were locked up in the Oak street police station last night, Eddie being charged with violating the Sullivan law. The stitches came to Eddie about two months ago as the result of a little

When Eddie's rare bits of hand carving were taken to the Volunteer Hospital, they found some bloodstains on

It is probable that the Navy Affairs Committee will authorize one of its members to visit the yards and see for themselves and make some provision for keeping the navy yards for the war construction work which cannot be placed in private yards. It is probable that he will be made this week to bring back a report.

But last night three shots were fired in a saloon at Cherry and Oliver streets, and the police guessed that Eddie had deferred his reform until he could "get" the gangster who caused so much work on the naval bill to an end of the next ten days.

League Urges Quick Action

wants \$25 a week alimony and \$250
counsel fee. Mr. Titus is the former
amateur single scull champion of Amer-
ica and won the 1905 contest at Henley
for the United States.

Arguments on the application will be
heard to-day.

TO KILL 500 MORMONS

He Cuts the Railroad at Corralitos to Prevent the Escape of Colonies in San Miguel Valley— Villistas Kill Three Persons at Conejos.

COLUMBUS, N. M., March 12.—Villista made his hiding place known today for the first time since the first attack on Columbus lighted his escape into the gray Mexican hills south of the town. With 3,000 men at his back, the guerrilla chief tore up the track of the Northwestern of Mexico Railroad at Corralitos and swept on toward the Mormon settlements in the San Miguel Valley.

This bold stroke has cut off from escape into the United States 500 Mormons, who had planned to make their way to safety across the border. It also

ried to Guzman to await the Mormons on their passage to El Paso. Learning that he was lying in ambush for their destruction, the Mormons delayed their attempt to escape. Villistas struck southward and cut the railroad at Corralitos.

A band of Villista bandits attacked a train of the Mexican National Railroad at Conejos today and killed three passengers. Ten Americans on the train were unharmed. Carranza guards sent the bandits to fight. The train was southbound from Chihuahua.

It is the general opinion along the border that the appearance of the first American soldiers on Mexican soil will

The American troops strike in quickly it is believed that these settlers are doomed. The ruthless raider has announced that he will put to death every man, woman and child in the settlements.

The Mormons are all that the revolution has left in the fertile country around Casas Grandes in the Guaymas district of Chihuahua. There were formerly 20,000 Mormons from the United States settled at a dozen colonies in the San Miguel Valley.

They had established prosperous settlements at Dublin, Casas Grandes, Colonia Garcia, Colonia Juarez, Colonia Colorado and other garden spots.

Since the raid on Columbus the Mormons have been planning to return to the United States, Villa was informed. After his raid into New Mexico he hur-

was a signal for the rallying of thousands of old revolutionary warriors to Villa's standard. Ten thousand men are believed to have joined the veritable day the American invasion is launched. Men old in the wisdom of the border say Villa will have from 20,000 to 30,000 men within a week after the "hatred gringo" sets foot in Mexico.

Tales are coming out of Mexico of large quantities of gold, silver and ammunition that Villa has buried in the hills. It should be pointed out that gold and silver in bullion and money that Villa has buried in northern Mexico at \$5,000,000, said one of Villa's former lieutenants, is the reason the treasure hoard is buried are known to no one on earth except Pancho Villa. The men who buried it for him were shot."

GET BIG U. S. ORDERS WILSON LET HIM GET

PHILADELPHIA, March 12.—Four of the greatest war munition factories in the world—the Midvale Steel and Ordnance Company, the Remington Arms Company, the Edgemoor Ammunition Corporation and the Baldwin Locomotive Works—with their many subsidiaries stand ready to cover their plants to the

This was announced to-day by Samuel M. Vauclain, managing director of the Wilmington Arms Company, and heretofore the largest manufacturer of small arms in the United States. The Middle Valley Steel and Ordnance Company, and Alba Johnson, president of the Baldwin Locomotive Works.

At the same time was acknowledged for the first time that all of these companies are rushing work on large orders of rifles, shells, steel castings and ammunition for the United States Government.

The following year that force was effectively shattered and Vilas' strength was much weakened. Relations became more serious than ever before.

The Hemmingway Arms Company at Wilkes, who had supplied an order for 2,000,000 rifles for the army; the Eddy-Stone Ammunition Corporation is pressing every available man into service to

for the United States. The Baldwin works have an order for 1,000,000 steel forgings and the Midvale company is hard pressed with orders from the United States. This was acknowledged to-night also by Mr. Vaucian.

Not only are these great concerns ready to throw their factories open to the government, but Albia Johnson stated that the Baldwin Locomotive Works are ready, if the necessity should arise, to abandon the manufacture of any other goods for the government. In order to insure the Government adequate supplies should the Mexican invasion prove a harder task than is expected.

These captains of industry declared that they will still be able to fill their European contracts and still meet every requirement of the government.

Mr. Johnson said his company would supply the United States with munitions in record time.

THE RESPONSIBILITY for the latest Mexican outrage at Columbus, said Major Gillette, "lives all that have profited from the sale of arms to the squabbling upon the shoulders of President Wilson. He has had Mexico in the hollow of his hand from the first. Had he not sold arms to the Huertista, the Government would have regained that country within three months after it took office and all the horrors that followed would have been avoided."

"This is of course a matter of opinion and others knowing something of the facts may hold different views. I cannot say."

"If President Wilson would believe nothing then about the murdering rogue Azula, can he be expected to be so lenient to Carranza, who is so cruel, hypocrite Carranza, and will he have his intervention to maintain the impossibility upon the throne?"

MOTOR TRUCKS NEEDED. Fifty-four motor trucks, the first ever ordered by the United States army, are to be used in the chase against the Mexican border after Villa. Col. A. L. Smith, Army Asks for Bids on 54 to Be Sent in To-day.

depot quartermasters at New York, has been instructed by the War Department to ask for bids to supply these vehicles as well as fifteen motorcycles and two wrecking wagons to carry supplies and repairs for the trucks.

Def. Section instructions came by tele-

phone from Washington. He was ordered to disperse with the usual routine of advertising and selling. The illustration of the need of such equipment, which Gen. Funston had asked for as necessary, "The trucks at any rate," such trucks, although they have been considered indispensable in the European War.

Gen. Smith was instructed to send telegrams to a dozen of the biggest manufacturers asking them to deliver tomorrow morning at 11 o'clock. The trucks, it is hoped, will be on their way to the front.

of the property of the U. S. schools and army. The U. S. Army has a large collection of books, and the U. S. Army Book Concern has purchased the entire interest in the Methodist Book Concern, which is a large printing house in Chicago at a cost of \$600,000.

WANTS MORE LABOR BUREAU:

City Club Asks Legislature to Increase Appropriation.

Robert S. Bunker, secretary of the City Club, said last night that the city needs more labor bureaus.

way to MAZDA's urban compact car, the truck will be a government-owned vehicle that will cost about \$125,000 and will form two trains of twenty-seven trucks each. The motorcycles, seven of which is to hold 100 people, will be used for communications from headquarters. The trucks are to be of a ton and a half capacity, with an allowance of 70 per cent. over weight and to be capable of 1 mile an hour. The trucks will be used in the city, it is needed, especially to the rural districts. The idea behind the request is to make an increase of \$25,000 in the appropriation for public employment of changes.

Under the present system of employment exchanges there are offices in Brooklyn, Albany, Syracuse, Rochester and Buffalo. It is the desire to extend this to the rural districts. When there is a need, especially to the rural districts. The idea behind the request is to

navigate any road that a team can make and are fast enough to keep up with cavalry as ordinary wagons cannot, thus avoiding the chance of troops being cut off from food and munitions on marches.

<p>WILSON WORKS THE WIRELESS.</p> <p>Keeps in Touch With the Mexican Situation From Mayflower.</p>	<p>LEAPS FROM BRIDGE TO DEATH.</p> <p>Unidentified Man Jumps From Cable Then Into Water.</p>
---	---

NEWPORT NEWS, Va., March 12.—The yacht Mayflower, with President and Mrs. Wilson aboard, left Old Point Comfort for Washington about 5 o'clock this afternoon. Mr. and Mrs. Wilson spent the day aboard the yacht.

papers in order that the President might be advised of the press comments on the Mexican situation. The Mayflower arrived here yesterday afternoon. The President and Mrs. Wilson landed, but declined an invitation to the President's son kept in close touch with the Mexican situation while here by a liberal use of the Mayflower's wireless.
